

MOHAMMED SHAFEEQUE M

Full Stack Developer | Node.js, React, Next.js, Expo, PHP/Laravel | ERP, CMS & SEO

Dubai, United Arab Emirates | +971 56 784 0532 | shafeeqeshzdx@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building websites, ERP modules, CMS platforms and REST APIs with Node.js, Express.js, TypeScript, React.js, Next.js, Expo, WordPress (headless), PHP (Laravel, Zend Framework, Drupal) and Python Flask on PostgreSQL and MySQL. At MRM Investment LLC (Vesla Group), a Dubai holding group of twelve businesses, built the group's corporate website end to end, moved its content management into the in-house ERP, and fixed SEO and CMS issues across the Vesla ERP and the Vesla Rent A Car website and apps. Strong in technical SEO, careful debugging and AI-assisted development with the Claude AI coding agent.

CORE SKILLS

Languages: JavaScript, TypeScript, PHP, Python, SQL, HTML5, CSS3

Frontend: React.js 19, Next.js 15 (App Router), Expo Router (React Native for Web), Tailwind CSS, Vite, Leaflet, Backbone.js, jQuery, Ajax, Bootstrap, Responsive Design

Backend: Node.js, Express.js, Laravel, Zend Framework, Drupal, Core PHP, Python Flask, Django (Basic), REST APIs, cURL, MVC, OOP

CMS & SEO: Headless WordPress, Custom WordPress Plugins, WordPress REST API, ACF, Custom Post Types, ERP-based CMS, Rich-Text Editors, Role-Based Permissions, Technical SEO (meta tags, canonical URLs, Open Graph, JSON-LD, sitemaps, 301 redirects), On-Demand Revalidation

Databases: PostgreSQL, MySQL, Prisma ORM, Eloquent ORM, PDO, Postgres Queues, SQL Query Optimization

ERP & Business: ERP Development, Car Rental Systems (RTA TARS, Salik, SIRA GPS), API Audits, Third-Party Integrations, BI Reporting (Excel, PDF, CSV), Data Analysis

DevOps & Tools: Render, AWS (S3), Docker, Jenkins, SonarQube, Git, GitHub (branches, pull requests), LocalWP, Jira, Gulp, Agile/Scrum

AI Tools: Claude AI Coding Agent (Claude Code), AI-Assisted Development, Prompt-Driven Code Audits

Soft Skills: Debugging, Problem Solving, Attention to Detail, Ownership, Cross-Functional Collaboration, Client Communication |

Currently Learning: MongoDB

WORK EXPERIENCE

Full Stack Developer — MRM Investment LLC (Vesla Group)

Aug 2026 – Present

Dubai, United Arab Emirates | Holding group of twelve businesses, including Vesla Rent A Car

- Built the MRM Investment corporate website (mrminvestment.ae) as headless WordPress with a custom plugin and a Next.js 15 front end, then rebuilt it in Expo Router (React, TypeScript) for web, iOS and Android, with full technical SEO on every page.
- Moved the website's content management into the Vesla ERP: built the admin REST APIs and editor screens (Node.js, Express.js, TypeScript, PostgreSQL) with role-based permissions.
- Audited the ERP's APIs and mapped gaps against Dubai car rental rules (RTA TARS, Salik, SIRA GPS, VAT) into a prioritised backlog.
- Fixed 19 SEO and CMS issues on the Vesla Rent A Car website and apps, upgraded the ERP rich-text editor, and took over the Speed car rental system integration.
- Use the Claude AI coding agent for AI-assisted development, debugging and code review.

Software Engineer — Full Stack Developer — Nucore Software Solutions

Sep 2022 – Nov 2025

Kozhikode, Kerala, India

- Developed and maintained the Business Intelligence (BI) module of TRAACS, a travel agency accounting software, using Backbone.js (frontend) and Python Flask (backend).
- Customized backend functionality with PHP, Zend Framework and Core PHP for seamless integration.
- Built report exports in Excel, PDF and CSV and automated data dumps using cURL.
- Wrote secure, efficient PDO-based SQL queries for MySQL and PostgreSQL; used Postgres queues for background tasks.
- Worked with cross-functional teams in Jira and communicated directly with clients on requirements and solutions.

Junior Software Engineer — Full Stack Developer — Syncrayons Technologies

Apr 2022 – Aug 2022

Technopark, Trivandrum, Kerala, India

- Developed and maintained e-commerce websites for German clients using Laravel.
- Used Eloquent ORM for MySQL and delivered fast, responsive and maintainable code to client requirements.

Junior Software Engineer — Full Stack Developer — Zil Bank

Jan 2022 – Mar 2022

Manjeri, Kerala, India

- Contributed to a banking web application for U.S.-based clients using Laravel.
- Built scalable, secure and maintainable back-end systems with REST APIs.
- Took part in the full development life cycle (requirements, coding, testing, deployment); certified for outstanding performance.

KEY ACHIEVEMENTS

- Improved system performance by 30% through backend optimization.
- Ensured 100% data accuracy during large dataset imports.
- Enhanced user experience, contributing to a 25% increase in client satisfaction.

EDUCATION

Bachelor of Engineering (BE), Computer Science and Engineering

First Class, CGPA 7.3

Kumaraguru College of Technology, Coimbatore, Tamil Nadu

Diploma in Computer Science and Engineering

Distinction, CGPA 8.0

Ramakrishna Polytechnic College, Coimbatore, Tamil Nadu

CERTIFICATIONS AND TRAINING

- PHP and Laravel Course — Eazy Learning (3 months, online) | Backend Development Internship (PHP & Laravel) — Zil Bank, Manjeri (4 months)
- Introduction to Python — Great Learning | C Programming — GUVI | Basics of Film Making and VFX — Maya Academy of Advanced Cinematics

LANGUAGES

English — Advanced | Tamil — Native | Malayalam — Native
